一个被称为 “Skimo” 或 “ski mountaineering (滑雪登山)” 的新项目将在2026年的意大利冬季奥运会上首次亮相。该项目包括接力赛和短距离比赛，参加比赛的运动员们需要在穿戴滑雪装备前进和背负装备徒步攀登之间转换。国际滑雪登山联合会对这一项目入选冬奥会表示欢迎，但也有运动员认为奥运会的人工比赛场地并不能准确反映这项运动的实质。本文简要介绍冬奥会新项目——滑雪登山。

词汇: skimo 滑雪登山

1 How do you fancy being up a mountain at a height of around 3,000 metres with the temperature below zero, snow underfoot, variable weather, racing up and downhill? This is how some athletes will be competing in this year's winter Olympics.

2 Skimo, short for ski mountaineering, is the newest winter Olympic sport and will debut at the 2026 games in Milan-Cortina. It combines Alpine skiing with mountaineering and is a race against time where athletes are required to ascend and descend mountainous terrain using skis and other specialised equipment.

3 At the Olympics, there will be a relay event, and also a sprint competition which lasts just a few minutes. Athletes start in a steep uphill section using climbing skins . These are detachable grippy strips you attach to skis to prevent sliding. The athletes then rapidly transition to boot packing where skis are carried on a backpack as they run up an incline as fast as possible. There is then a technical downhill course full of tight turns and obstacles . Because of all the transitions, races can be won or lost in seconds depending on how smoothly the athletes can switch between modes .

4 One hopeful British qualifier , and a member of the GB Skimo squad , is Iain Innes. Despite the sport being included in the Olympics, which he says is great news, he doesn't think the events accurately represent ski mountaineering. "There is no element of mountaineering whatsoever, as the World Cups and Olympics are held on man-made slopes with berms and jumps and perfectly cut steps on the climbs", he told the British Mountaineering Council.

5 However, inclusion in the Olympics is a positive reflection of the sport's global growth and development. The International Ski Mountaineering Federation (ISMF) oversees the regulation and promotion of the sport and has established a World Cup circuit, as well as continental and

World Championships, all of which have helped elevate the sport's standing . So, look out for this extreme sport this year and feel that adrenaline rush.
