

词汇: *restaurants* 餐厅

- 1 What do rubber tyres have **to do with** delicious food? The answer lies in the story of the Michelin brothers. French inventors Edouard and Andre Michelin created the Michelin tyre company in 1889 and transformed the travel industry. A few decades later, they began publishing a guide to highlight food in restaurants worth travelling for, which, of course, they'd need strong Michelin tyres to reach. Nowadays, the **coveted** Michelin star – an award given to only the world's finest restaurants – is one of the **culinary** world's highest **accolades**. But the rating system is somewhat **shrouded in mystery**.
- 2 The Michelin Guide itself says their inspectors **take into account** five criteria: the quality of the ingredients, the **harmony** of flavours, the **mastery** of techniques, the personality of the chef as expressed through their **cuisine** and consistency both across the entire menu and over time. But the inspectors are anonymous, and chefs are always **kept in the dark** about when they are going to visit. "We're never aware of the inspectors' visit," said Julia Sedefdjian, who became France's youngest Michelin-starred chef at the age of 21. "If they introduce themselves, it's only after they've eaten. And often – very often – they never introduce themselves at all."
- 3 And how much does the overall **ambience** of a restaurant **play into** the ratings? Ideas vary. Chef Maxime Bouttier, who has worked in Michelin-starred restaurants across France for 15 years, thinks details like white tablecloths and background piano music can help to **tick boxes** for inspectors. Despite this, Bouttier's own restaurant doesn't have tablecloths, and his **clientele** listen to '80s rap while dining, yet his restaurant earnt a star less than a year after opening. The Michelin Guide says a Michelin star is awarded for the food on the plate, nothing else, and that the style and degree of formality have **no bearing** on the award whatsoever.
- 4 Michelin stars can **make or break** a chef's culinary career. Earning one gives a chef more recognition, more table bookings and can allow them to raise their prices. But there's also the risk of losing one, and with that comes a lot of pressure.

测验与练习

一、根据文章内容选出正确的段落。

Which paragraph discusses the atmosphere of a restaurant?

二、根据文章内容选出正确的选项。

1. The Michelin brothers created a restaurant guide and then created a tyre business.

- a. True
- b. False
- c. Not given

2. Michelin stars are given to 300 restaurants per year.

- a. True
- b. False
- c. Not given

3. What makes the Michelin star rating system mysterious?

- a. The Michelin Guide doesn't share their scoring criteria.
- b. The inspectors don't say when they are going to visit the restaurant.
- c. Chefs never find out who the inspectors are.

4. Chef Maxime Bouttier's restaurant has white tablecloths and piano music playing.

- a. True
- b. False
- c. Not given

5. What does 'one' refer to in the following sentence in paragraph 4? *Earning **one** gives a chef more recognition, more table bookings and can allow them to raise their prices.*

- a. a culinary career
- b. a Michelin star
- c. a plate of food

三、用方框中的单词完成对本文的总结。

The Michelin star is a(n) **1)** _____ that many chefs desire, but how they are awarded is **2)** _____. Inspectors **3)** _____ factors such as the quality of ingredients and the mastery of techniques – it has nothing **4)** _____ the style or degree of formality of the restaurant. If chefs want recognition for their **5)** _____ skills, one way to do that is to earn a Michelin star.

culinary	ambience	take into account
to do with		accolade
mastery		shrouded in mystery

（答案见词汇表后）

词汇表
