

词汇: *ginger* 生姜

- 1 It's normal for our bodies to not always be in **tip-top** condition, whether we catch the flu, have aching muscles after lots of exercise or get **travel sick**. But there's an ingredient that can help with all of that, and it can be used in all sorts of ways.
- 2 Ginger isn't just something to have in the kitchen – it's been used as an **aid** for centuries. Research consistently shows it eases **nausea**, such as **motion sickness**, and is recommended as a **remedy** by the NHS for helping **ease** pregnancy sickness. Anna Daniels, a dietitian and spokesperson for the British Dietetic Association, says it's so beneficial because it has "powerful **anti-inflammatory** properties which assist with reducing inflammation in the **gastrointestinal tract** and therefore relieve discomfort and **settle** upset stomachs."
- 3 And it can help with more than just nausea. Ginger tea has been shown to help fight colds and flu because it encourages **perspiration**, which in turn reduces **feverish** symptoms. Gingerol, a **bioactive compound** in the spice, has been found to help reduce the risk of infections because it supports immune health, including **autoimmune** conditions such as rheumatoid arthritis and lupus. And if you're sporty, there's good news for you too. Studies by the International Journal of Preventative Medicine and The Journal of Pain found that a daily **supplement** of ginger eased muscle soreness after intense physical activity.
- 4 So, how can you use ginger? It's an incredibly **versatile** ingredient and can be used in almost anything from tea to biscuits to **fiery** stir-fries. Many cafes and supermarkets now sell ginger **shots** promoting health benefits. Emily Jonzen, author of The Goodness of Ginger and Turmeric, suggests **grating** it, though she advises "it has a strong flavour and a fieriness to it so introduce it to your cooking a little at a time".
- 5 So, if you like the taste, you could incorporate it into your diet and see if you feel these health benefits.

测验与练习

一、将标题和段落配对。

Paragraph 1 _____

Paragraph 2 _____

Paragraph 3 _____

Paragraph 4 _____

Paragraph 5 _____

- a. Give it a go
- b. Helping an upset stomach
- c. How to use ginger

shot	小杯
grate	擦碎（食物）

答案

一、将标题和段落配对。

Paragraph 1 **f. A cure for all**

Paragraph 2 **b. Helping an upset stomach**

Paragraph 3 **e. A range of problems it helps**

Paragraph 4 **c. How to use ginger**

Paragraph 5 **a. Give it a go**

二、根据文章内容选出正确的选项。

1. **c. Not given.** ...*is recommended as a remedy by the NHS for helping ease pregnancy sickness.* 'Eating ginger daily' is not mentioned.

2. **b.** ...*it has "powerful **anti-inflammatory properties** which assist with **reducing inflammation** in the **gastrointestinal tract**..."*

3. **a. Ginger tea** *has been shown to **help fight colds and flu** because it encourages perspiration...*

4. **b. False.** *Gingerol, a bioactive compound in the spice, has been found to help reduce the risk of infections because it **supports immune health, including** autoimmune conditions such as **rheumatoid arthritis** and **lupus**.* It does not say ginger can **prevent** the conditions – it **supports** autoimmune conditions.

5. **c.** She says "*it has a strong flavour and a fieriness to it so **introduce it** to your cooking **a little at a time***".

三、用方框中的单词完成对本文的总结。

It's not just the **fiery** taste that's good, **ginger** has health benefits too. **Anti-inflammatory** properties help reduce inflammation and ginger tea has been shown to help fight **colds and flu**. You can use it in any number of ways because it's so **versatile**.
